### VintageLogos.com

## **20 Inch Templet**

# **Color & Quality**

#### Design in the RGB color mode. Bitmap files need to be 100 - 150ppi at actual size.

Colors come out more vivid with this setting. You can design up to 300ppi.

### Bleed

Extend background images or colors to the blue line.

## Live Area

This is what the audience will see. Place important text and images inside this line.

#### Convert fonts to curves or paths before saving. Save as .png .jpg .pdf .tif .eps .svg

Before saving remove the instructions & guide layers.
